

# State Report Card and School Financial Community Presentation Toolkit

Facilitator Guide

November 2022

## Toolkit Overview

Holding a community presentation gives you an opportunity to build transparency and engage the community in important information that is vital to the health of your district. This presentation toolkit will allow you to tell your story and explain how important decisions are being made. The toolkit materials use real data to explain the current status of multiple programs and structures within your district and give you a chance to discuss how you are planning for equity in your schools.

These materials provide general information and a structure for the conversation, but they also allow for customization of details in your local context. The materials use sample data and images that you can replace to personalize the information for your district. See the note at the bottom of this document regarding modifications to the materials.

We recommend that you present the information in a way that is easily accessible for the audience. Consider the best way to deliver the information. For example, consider the appropriate channels and dissemination methods to reach a broad, diverse audience. We encourage posting materials on the district's website.

## Materials

The toolkit includes the following materials:

- State Report Card and School Financial Community Toolkit Facilitator Guide
- State Report Card and School Financial Community Presentation Template
- Frequently Asked Questions About Public School Finance and the Every Student Succeeds Act

## Toolkit Objectives

- Provide local background information.
- Summarize and explain elements of the State School Report Card.
- Summarize and explain local and state financial information.
- Summarize and explain special circumstances specific to the local district.
- Provide opportunities for additional information and feedback.

## **Presentation Guide**

The State Report Card and School Financial Community Presentation Template provides you with a meeting structure to directly communicate pertinent information to the audience. We designed the presentation template to be inclusive and accessible to incorporate all the diversity in your district. We intentionally included equity considerations throughout the presentation to ensure all groups are considered and all audiences are included.. We ask you to pay special attention to the notes section within the presentation slide deck, where we included numerous considerations, questions, and reminders related to equity.

### **Intended Audience**

Stakeholders who would benefit from this toolkit may include parents, community members, or district faculty and staff.

### **Presentation Checklists**

Exhibit 1 provides an initial starting point for planning in-person meetings. Exhibit 2 provides a planning checklist for virtual meetings. These lists are not comprehensive, so we included additional lines in the exhibits to add district-specific context as needed.
